ConnectAnza announces Low Income and Higher Speed Rate options

Cooperative continues innovative and successful program

Anza— 28 August 2020 —

Anza Electric Cooperative, Inc. has released new rate options for its award winning ConnectAnza Broadband program.

First, utilizing their state-of-the art fiber optic network, the Cooperative is offering a new high-speed rate of **300Mb/s** upload and download for residential members at the low monthly cost of \$79.00. This option is in addition to the already low-cost standard residential service speed of 100Mb/s upload and download for \$49.00. New or existing Residential Member services are eligible for the upgrade option.

Additionally, income qualified residents may now apply for the **ConnectAnza 20/20/20 Program**, which offers a 20Mb/s upload, 20 Mb/s download connection for \$20.00 per month. This offering is available to residents whose household is already qualified for government assistance programs such as the Low Income Home Energy Assistance Program (LIHEAP) Cal-Fresh, or any other state or federal program. Proof of eligibility must accompany the application for service and is limited to 200 participants on a first-come, first-served basis. Annual re-qualification is required.

For more information on ConnectAnza services, please contact the Cooperative office at (951)763-4333 or www.anzaelectric.org.
